NOTE TO : Executive Assistant to D/Pers

Bertha:

Thank you for your note concerning our comment about the "canned" questions handled by the panel during the 9 June Supervisory Responsibilities Program.

As noted in our memorandum in which this comment was contained, this was just an impression we had. I am delighted, of course, that we were wrong and will plan to bring this to the attention of all of our supervisors who attended this last supervisory program. In view of the fact that the questions were not canned, I think we must admit that our senior people did remarkably well in their reactions to the unexpected questions and I hope we did not offend you or D/Pers in reporting the impression that our supervisors had.
